# Guidelines: Exhibition Demonstration Submissions - TAS Programme All Hands Meeting 2022

UKRI
Trustworthy
Autonomous
Systems **Hub**

You're invited to showcase your TAS work at the 2022 All Hands Meeting. There will be an exhibition space to facilitate engagement with the TAS community attendees.

An abstract (300-500 words) should be submitted, capturing the essence of the planned demonstration, and a short description of the system or installation. The abstract should be submitted through this form.

You will need to consider your space requirements and the message your demo delivers in your submission.

Following review by the TAS AHM Working Group, a decision will be notified to the demonstration author(s). The review process is not blind.

Abstract length:

300-500 words

Abstract submission:

06 May 2022

Notification of outcome:

13 May 2022

Deadline for registration:

10 June 2022

Accepted Demos

Demos will take place in the Exhibition area and will be configured to facilitate free and continuous access by the TAS AHM delegates.

Presentations

For each demo a dedicated space will be allocated, featuring space for one poster, table, and chair.

TAS AHM Programme

All demos will be listed in the TAS AHM Programme, on the website – with links to the home website (if provided.)
